

Dev. pressures facing savanna grassland extremer than trop. rain.

In 2019 Gatot Inicanto, minister of indoneisan agriculture said that “palm oil was a gift from nature” by expanding the economy through palm oil “to eradicate poverty” on a natoinal scale, this saw 23% of all TRF deforested, to grow a monocoulture, Insert AO2! ! !

This meant that biodiversity dropped by 32\$ as the homogenisation of a specias as well as the anthropogenic

THis is ao2 -> this development pressure economically is seen through their government claim to create 20,000 new jobs for the palm oil industry as of 202

this is ao2 ->
